Email: theclub@nrna.net Web: www.nrra.net

The School Recycling Club (The Club) is a FREE program for all New Hampshire schools as well as schools in other states whose communities are members of the Northeast Resource Recovery Association (Co-op). For students and teachers in grades K-12, The Club serves as a centralized organization to become more active in the world of recycling. The Club is a fun and innovative way to give kids encouragement, direction, and networking possibilities for school recycling programs. The guidelines for membership are:

1. The school is currently recycling or agrees to recycle at least one item (i.e. paper, aluminum cans) within one year's time of joining The Club.
2. There is a centralized group (i.e., organization, eco-club, academic class). Any existing group can join or a new organization or club can be formed.
3. The group has written permission of the Principal or Vice Principal to join and has one (1) adult contact (teacher, guidance counselor, administrator, etc.).

Upon becoming a member of The Club, the group will receive a "Membership Packet", which contains everything needed to become an active member of The Club.
