Request for proposal (RFP);

Residentially Generated Solid Waste Disposal Contract.

Scope of services:

The New Boston Board of Selectmen is requesting proposals providing a multi-year contract for the disposal of approximately 900 tons annually of residentially generated solid waste delivered to your facility by 75 yard Tri-axel trailers. Contract ranging from 3 to 5 years is requested with a starting date of January 1, 2016. Extended contracts will be considered depending on favorable fee structures. CPI should not be part of pricing factors.

Facility Details:

New Boston operates a residential drop off facility and has a very strong recycling program in place. Commercial haulers do not access the facility. Minimal non-burnable materials and construction debris are allowed in the solid waste stream.

Considerations: Contract pricing, length of contract, logistics, ease of access to disposal site and wait time.

Date of Submission and Opening:

Proposals shall be received no later than 2:00 pm on Wednesday September 16, 2015 by Certified Mail. Proposals will be opened and read aloud at 2:00pm in the Selectman's office. ***Any submissions received after this time will not be considered.***

Submissions are to be mailed to:

Town of New Boston
Board of Selectmen
PO Box 250
7 Meetinghouse Hill Road
New Boston New Hampshire, 03070

Attention: Town of New Boston Solid Waste RFP

Contract Award:

Proposals will be reviewed with final discussion and contract award at the normal Selectman's meeting at 6:00 pm September 21, 2015. The New Boston Board of Selectman reserves the right to reject any or all of the proposals. Final decision will be in the best interest of the Town Of New Boston.

Additional request:

New Boston will consider separate proposals for disposal of approximately 215 tons of demolition material per year, delivered to your facility by 40 yard demolition containers.

All interested parties are welcome and encouraged to visit the New Boston Transfer Station located at 412 Old Coach Road, New Boston NH.
